Waking Up to Love

Dr. Scarlett Heinbuch & David Schwartz

Saturday, February 9th 2pm

Scarlett & David – Scarlett met David for the first time in September 2005 when David was on the brink of death. He had been in an unresponsive coma for nearly four weeks, on a ventilator for life support and in complete kidney failure due to a rare form of vasculitis. Scarlett spent 12 days doing energy healing with David. During that time, they had a Shared Near-Death Experience (SNDE) resulting in an unexplained medical recovery for David and an unexpected love story for them both. The story of two people who woke up to a world of love on the other side and were able to bring it back to earth—together—will inspire others to know that the transformative power of healing love exists and can be applied in everyday life.
